

Vancouver  
Airport  
Pipeline  
Opposition  
for  
Richmond

I am opposed to the Jet Fuel Marine Unloading Terminal and the 80 Million Litre Jet Fuel Storage Facility proposed anywhere on the banks of the Fraser River Estuary or adjacent to residential condominiums, Watermania and the Riverport entertainment area.

I am also opposed to the routing of a Jet Fuel Pipeline from the riverside storage facility to the Vancouver International Airport through residential neighbourhoods.
